

Report on Poetry Competition on the theme " Recycling towards Green India"

A poetry competition was held by the NCC wing of Govt. College for Women, Nawakadal, Srinagar from 1st to 5th November, 2021 on the theme "Recycling towards Green India".The NCC cadets actively participated in the competition, showcasing their creative talent.

Name : Ifla javoid

College: GCW Nawakadal

We can recycle what we use
Instead of plastic we can use jute
We can clean rather than a mess.....
We can crush the tins and cans
And recycle them as fast as we can
We can change the garbage into a manure
By which waste can become a cure
We can have a ride rather than a drive
Left over food from your breakfast or lunch
Becomes great food for the worms to munch
Compost some paper, leaves and plants too
It becomes a soil for our gardens too
Turn off the light when you are not in the room
It will help all no matter your mood
The more things we recycle the better thing are
cleaning up our environment near or far
Let's get united and make the 3R'S in use
Whether we recycle, reduce, or reuse
Let's make a move for the green india 🇮🇳 we have

Created with Mi Notes

Recycling Towards Green India

Poem

A can in the bin

And another went in

Recycle, Recycle

We all recycled and added a can,

**There were four in the bin and
another went in**

Recycle, Recycle

We all recycled and added a can,

**There are five in the bin and
another went in bin**

Topic =

Recycling towards green
India

Reduce, Reuse, Recycle
Words that we all know
We might be only children
But we will try, you'll see.

We recycle what we use,
Separate things if you should too
Glass of paper, plastic, tin
Go in your recycle bin!

We must start now, we can't wait
Quick, or it will be too late
And we can save this planet
It starts with you and me.

RECYCLING TOWARDS GREEN INDIA

Look around,
there's so much plastic,
Let's recycle,
It's fantastic.

Don't forget,
about paper and glass,
Recycle together,
with your entire class.

We'll make sure,
we never litter,
let's recycle,
we're not quitters.

Thanks for keeping the environment
healthy and clean
Recycling is fun
and also quite green.

Let's segregate our waste in right
bin

That's how both nature and us
will clearly win.

We should put things in recycle
bin

From domestic waste to hair pin.

Let's not create a mess on earth
We should clean it and make it
worth.

We can't use it once and throw
Sow one seed and it will grow.

Connect with nature and recycle
things
that's how great thing always
begins.
